
Editorial Platform

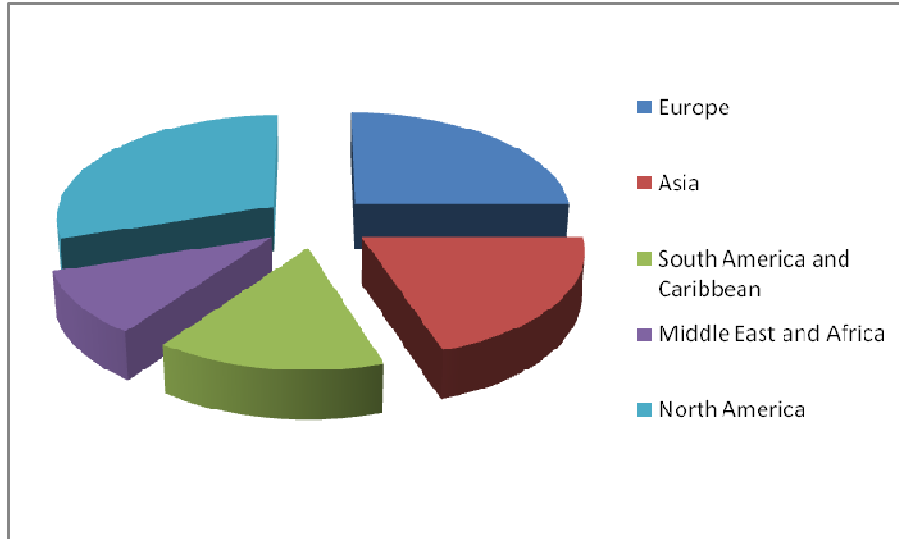

Cargo Security International is read by thousands of transport, cargo and security professionals, and by governments, legislators and defence experts in more than 40 countries. Why? Because it is the ONLY magazine that covers all modes of transportation – maritime and seaports, aviation and airports, road, and rail – but always with a sharp focus on security.

Readership and Circulation

Cargo Security International is published every two months, with an average distribution of 7,000 copies. This figure includes: our paying subscribers; a database of carefully targeted and controlled organisations receiving free copies; and 'bonus distribution' to attendees of major intermodal and cargo security-related events.

Cargo Security International's subscribers include: shipping companies; fleet operators; freight forwarders; international couriers; logistics providers; port authorities; customs services; government ministries; law enforcement personnel; technology providers and industry consultants.
